- Minimum 2.750 overall GPA
- Completion of job shadowing as directed in the Radiation Therapy Information Packet found on the program website
- Completion of the interview process for those who meet program admission requirements
- Applicants should contact the program director of the radiation therapy program for advising

Requirements to graduate with the BS degree program: To graduate, students must have minimum 120 credit hours, 39 upper-division credit hours of coursework, a minimum 2.00 major GPA and minimum 2.00 cumulative GPA. They must also fulfill an approved experiential learning experience, a two-course diversity requirement (domestic and global), complete a writing intensive course with a minimum C (2.000) grade.
