Hello Potential Applicant,

Thank you for your interest in the Veterinary Technology program here at Eastern Gateway Community College. This packet has been designed to assist you in navigating the application process. Inside you will find a checklist of program prerequisite courses, a field experience form, and a background check form. Please note there are 13 credits of required prerequisites which must be completed and a grade posted in CampusCloud before your application can be considered. You must also complete a minimum of 40 hours of field experience which can include shadowing/volunteering at a veterinary clinic/hospital, large animal farm/facility, and/or animal shelter. However, applicants are encouraged to complete as many field experience hours as possible. A background check is also required.

Please copy the completed and signed field experience form, returning one copy to your enrollment specialist and the other copy to the Office of the Dean of Health Sciences and Public Services (rriska@egcc.edu). For applicants interested in potentially starting in the Fall of 2021, all prerequisites and forms must be completed and submitted by August 5, 2021. For applicants interested in potentially starting in the Spring of 2022, all prerequisites and forms must be completed and submitted by December 10, 2021.

As seen in the attached course grid, our curriculum is both rigorous and varied. Courses are offered in companion, large, and exotic animals with an emphasis on all aspects of companion animal care. We are pleased to partner with Angels for Animals, 4750 South Range Rd., Canfield, OH, 44406. Angels for Animals has a beautiful state-of-the-art facility including a shelter/adoption center, spay and neuter services, a full-service veterinary clinic including several operating theaters, and classrooms. Many classes will be held at this facility.

Again, thank you for your interest in EGCC's Veterinary Technician Program. We are proud of the scope and quality of our curriculum. Sixteen to eighteen students will be accepted into each class (Fall and Spring). Please feel free to reach out to myself, your enrollment specialist, Senior Vice President of the Youngstown campus Art Daly (ADaly@egcc.edu) or Dean Augustine (GAugustine@egcc.edu) with any questions.

Sincerely,

Dr. M. Sabihi, Program Director Veterinary Technician

64 credits Veterinary Technician program (13 Program Admission Requirements)

Associate of Applied Science Veterinary Technology

Field Experience Form

A minimum of 40 hours of field experience is required for all applicants.

Complete and submit this form to the Dean of Health Sciences and Public

Services office (rriska@egcc.edu).

*Applicants should explain their experiences working with a licensed technician (such as employment, volunteering, shadowing, or observing) at a veterinary practice, shelter, or farm.

*Field experience of minimum of 40 hrs. or more is required to qualify for consideration into the Vet Tech program. *If you are having difficulty finding a field experience location, please contact Angels for Animals at (330) 549-1111.*

Applicant – Please answer the following questions:

- 1) What did you observe and/or do during your field experience?

- 2) What part of this profession do you like the most?

- 3) What is the average salary of a technician? What are the specialty areas of this profession?

Preceptors – Please answer the following questions:

Total number of hours that applicant participated in daily vet tech tasks including observing, shadowing, or hands-on practicing?

Was the applicant on time? Show interest on the daily tasks? Ask questions?

Did the applicant participate in conversation regarding the tech job, and did he/she show interest in learning the procedures and techniques?
